GREAT BRITAIN:
DECIMAL DEFINITIVES
from 1970
MACHINS & COILS
HIGH VALUES
CHARLES III DEFINITIVES
POSTAGE DUES

This is a simplified listing of decimal Machin stamps, decimal Wildings and high value definitives from 1970. The listing is based on SG *Concise* and updated regularly from *Gibbons Stamp Monthly*.
Our listing of predecimal (£/s/d) Machin stamps and predecimal Wildings, can be found in our "GB Definitives to 1969" list.
Our Specialised Machins list is available for more advanced collectors. There is also a separate list for Regionals.
Dates indicate when a particular stamp was first issued philatelically. However, those stamps may come from a number of sources (sheets, coils, booklets, prestige booklets) which have different issue dates and different attributes.
As this is a simplified list, stamps supplied can be from any source and issued on dates other than those indicated.
Collectors who require stamps from specific sources or with specific attributes are referred to our Specialised Machins List.

List Structure:

WE OFFER A NEW ISSUE SERVICE FOR GREAT BRITAIN. PLEASE ENQUIRE.

MINT & USED STAMPS; GENERALLY, WE DO NOT SELL MINT or USED MACHINS; FU stamps listed are one-offs.
Fine used stamps are reasonably well centred, defect free and have light commercial cancellations. The British Post Office will NOT hand cancel mail, philatelic or otherwise. Registered &/or parcel mail yields only a minute percentage of suitable cancellations. Consequently, circular cancels are difficult to obtain and a number of GB fine used stamps sell in excess of MUH prices. Collectors who insist on circular cancels can expect to pay premium (FDC) prices on many issues. We automatically supply circular cancels when available.
Good / average used, when available, sell for one half the FU price. Please enquire.

A blank in the "Main Source" column indicates a stamp from counter sheets.

Please note that GST (currently 10%) is applicable from 1 July 2000.
International sales are GST free.

The prices in this list INCLUDE GST

All prices are in Australian dollars.

SPECIAL SECURITY FEATURES

Security features include:
elliptical perforations
iridescent ROYAL MAIL wavy lines background overlay
horizontal iridescent ROYAL MAIL lines overlay to the Queen's head
2 "paperclip" cuts
for self adhesives, water insoluble gum
source & date codes
iridescent ROYAL MAIL wavy lines backing paper overlay
These features were introduced gradually and do not exist on all stamps

Note that this series is constantly changing as new values and date reprints of existing values are added. SG slot new values into the various sub-classes often using "a" & "b" numbers etc. On occasion existing stamps need to be re-numbered. Until the next SG *Concise* is issued, SG numbers may be inconsistent with earlier SG catalogues and duplicate numbers may exist.

Source codes - generic Machins (emphasis added):
ROYAL MAIL - no code - counter sheets of 50
ROY**B**L MAIL - code B(1) - business sheets of 50 [B for business]
ROYAL M**B**IL - code B(2) - business sheets of 100
ROYAL M**C**IL - code C - booklets containing Machins & special stamps [C for custom]
ROYAL M**F**IL - code F - booklets containing 4 definitives [F for four]
FOYAL MAIL - code F - booklets containing 4 definitives [F for four]
ROYAL M**M**IL - code M - Miniature Sheets [M for miniature]
ROYAL M**P**IL - code P - Prestige Stamp Booklets [P for prestige]
ROYAL M**R**IL - code R - rolls [R for roll]
ROYAL M**S**IL - code S - booklets containing 6 definitives [S for six]
ROYAL M**T**IL - code T - booklets containing 12 definitives [T for twelve]

Stamps are from counter sheets unless otherwise noted

In the paper column, SBP = Security Backing Paper

It is clear to us that the embedded codes, especially the date code, have less to do with security and more to do with revenue raising.
Try ordering a particular item with a specific date code from the Philatelic Bureau. You will be singularly unsuccessful. What you will get is pot luck.
Consequently, blind purchases in the hope of getting a new date code are very expensive and leave you with unsaleable / unusable stock.
It is even worse for business sheets which contain 100 stamps, when you are supplied with a year date you do not want.
Royal Mail will argue that stamps are produced for commercial purposes and that philatelic is a peripheral. Given the philatelic revenue generated (which is to a large extent pure profit), that is nonsense.
Thus for an Australian dealer to acquire year dated stock at a reasonable price, is nearly impossible.
Add to that, most UK dealers use "global accounting" which means you pay a large chunk of non-rebateable UK VAT, as well as Australian GST, which makes acquisition of stock totally impractical and / or uncompetitive.
Consequently, we have decided not to list year dated REPRINTS of self adhesives which we do not have.
After all, this is a simplified Machins list. It is not a catalogue.
We may also "de-clutter" the specialised Machins list of superfluous entries at a later date.

The above pack is essential for specialist Machins collectors as it is the only source of 5 specialised definitives.
The last 5 stamps on the bottom row of the pack are all self adhesive, full die cuts (referred to by Unitrade as "cut to shape"), on white substrate (a Deegam term -- commonly referred to as backing paper).
They have been punched from special coils expressly created to service these packs.
The last stamp has already been made available in this form as a single from Royal Mail.
The NVI 1st & 2nd Machins have appeared on white backing paper from business sheets but only in kiss die cut format (ie surplus backing paper). This is their first appearance full die cut.
The worldwide postcard and Europe airmail stamps have been available as singles, full die cut, but on booklet stock (red and blue backgrounds), having been punched directly from the booklets.
This is their only appearance on white substrate from the specially created coils.
However, other subtle differences exist. All 3 airmail stamps have dull fluor, and have been printed by Walsall in different shades to the originals which have brighter fluor.
These varieties have been catalogued by Deegam and Connoisseur and, presumably, other specialist Machins catalogues will follow suit.
It is uneconomic for us to sell only 5 relatively low values from the pack.
We have limited stocks of this pack so, if you require one, please order quickly.

		 The above pack is essential for specialist Machins collectors as it is the only source of 2 specialised definitives. The first 2 airmail stamps are self adhesive on white substrate and punched from special coils expressly created to service these packs. Unlike the examples in the previously illustrated pack, they are not die cut to shape but have been punched rectangularly with a white matrix border. The 2 airmail stamps were also issued in retail booklets of 4, but these have corresponding green and purple booklet covers, and no matrix.
