To find an item in this list, please use Adobe's powerful search function.

We obtain our stock from collections we purchase.
We do not have a Hungary supplier.
Consequently, where something is unpriced, we do not have it at present.

We list all items we have in stock, including broken sets, and singles from sets.

Prices subject to change without notice.

MINT NO GUM STAMPS

We have many pre 1962 MUH / M stamps from poorly stored collections which are gum toned &/or with rust spots.
They are classified as mint no gum [MNG], & priced & listed as such. We will supply them "as is", ie MUH / M.
Defect free pre 1962 MUH / Mint are listed and priced as such.

Please note that GST (currently 10%) is applicable from 1 July 2000.
International sales are GST free.

				FORGERIES Look like they were printed yesterday, by litho. Well centred, clean with full gum. Real give away is the perforations which have clean uniform holes. Genuine issues have irregular perf holes, non uniform size, and non aligned, ie not in a straight line. Genuine issues are all line perf -- not comb. Genuine P10 issues do not exist. Genuine issue has pointed perfs, not flat. Also, well centred genuine issues are scarce -- off centre is the norm. Space fillers

				In the 1881 series (below), Michel does not distinguish Plate I from Plate II, nor does it distinguish as many colour varieties as Stanley Gibbons. Furthermore, Michel consolidates a number of different perforation varieties into a single number. Suffix "A" = P11½; P12:11½ compound. Suffix "B" = P13; P12½:13 compound; P11½:13½ compound.

				3 HOLE PUNCHED STAMPS					
				From 26.2.21, each stamp in the middle two rows and columns of sheets of postage stamps, officials and postage dues, were punched with 3 holes in the shape of a triangle. The ostensible purpose was to defeat speculation in stamps. Punched stamps were sold over post office counters. Collectors and dealers who required unpunched stamps had to purchase them at a 10% premium over face, from the Hungarian Philatelic Bureau. Both punched and unpunched stamps were valid for postage. With 100 stamps to a sheet (say), 36 punched and 64 unpunched stamps, either the Philatelic Bureau had enormous sales (highly unlikely), or there was a huge surplus of unpunched stamps (most likely). The scheme was abandoned as futile on 1.10.1924. The following are the known three hole punched issues. Dates are the date of the original stamp issue -- not the punching date.

				RESTRICTED ISSUE IMPERFORATE STAMPS & M/S's					
				Their existence is noted by SG, but they are not catalogued because their issuance was restricted. To enable identification by collectors, SG catalogue numbers for the perforated issue are shown in this list. They are catalogued by Michel with a "B" suffix. Imperforate stamps and M/S from 1949-1957, although sold officially as proofs, were not valid for postage. Imperforate issues from 1958 to 1991 were valid for postage. From 1957 to1991, almost every perforated issue was also issued imperforate.					
				ONLY ISSUES IN STOCK (or were in stock) ARE LISTED
