DESIGN FORMATS
Many issues for Indonesia are complicated by different formats,
for example, horizontal strips, vertical strips, and blocks of the same stamps.
This is further complicated by the various illustrated album manufacturers adopting different formats
and often providing multiple single spaces for se tenant issues.
We obtain our stocks from purchased collections and it all depends on which manufacturer's album contains the collection.
European album manufacturers are known for favouring vertical formats when horizontal formats, preferred by many collectors, also exist.
SG lists only some of the formats. Michel lists most.
Furthermore, SG do not list all issues, but usually note many of them.
We are unable to list everything and unless you specify the format required, we will supply what we have available.
We may not be able to supply the format if you specify one.

To find an item in this list, please use Adobe's powerful search function.

We obtain our stock from collections we purchase.
We do not have an Indonesia supplier.

We list all items we have in stock, including broken sets, and singles from sets.

Prices subject to change without notice.

Please note that GST (currently 10%) is applicable from 1 July 2000.
International sales are GST free.
