Stamps without gum

A large number of early Japanese stamps were issued without gum - [NG].
These stamps, in the condition in which they were issued, are listed as MUH.
These stamps, which have been hinged, are listed as Mint.
These stamps, which have been obviously washed, are listed as MNG.
The MNG category is almost exclusively for stamps which were issued **with** gum but which has been washed off.

PAPERS

Native paper = Japan manufactured paper
Ordinary paper = foreign manufactured paper
Laid paper - ribbed paper (ribs are parallel and usually horizontal)
Wove paper = meshed paper where the mesh is so fine it gives a smooth uniform un-ribbed surface with the mesh not visible to the naked eye
Pelure paper - a thin, hard, rough, semi-transparent paper. It can be brittle.
