AUSTRALIA: SPECIAL CANCELS - I AUSTRALIA POST COVERS

List Structure:
FDI Special Cancels on Unaddressed Australia Post Covers
Unaddressed Australia Post Commemorative and Souvenir Covers
Special Cancels on Australia Post Covers
Lettercards, Postcards, Aerogrammes, Other AP Items
Special Condition Covers

POSTMARK REFERENCE NUMBERS are to the definitive reference work by **Colleen A Woolley assisted by Janet S Eury** titled **"Australian Pictor-Marks: A graphic history of Australia's Pictorial and Commemorative Postmarks" Edition 2, 2013**. Volume 1 1879-1989; Volume 2 1990-2012.
This 2 volume set is an indispensable tool which no serious cover and/or postmark collector can be without.
It is the definitive reference on Australian pictorial & commemorative postmarks.
Annual supplements were issued, however, the book and supplements are no longer produced. Those that were are out of print.
We have retained the old Peck numbers only because they are there. Correctly, we believe, they have been deleted from the 2nd edition of APM as they have outlived their usefulness as a transition to the new APM numbers.

SPECIAL CONDITION COVERS

The following covers are Australian special cancels/postmarks. They are from a collector who tried to obtain multiple strikes on a standard sized envelopely unfortunately leaving only space for an address, which was usually (sometimes poorly) handwritten. The Post Office then had the unenviable task of trying to apply postmarks as best it could. Consequently, postmarks occasionally overlap, cover part of the address, cover much of the stamps, etc. Now for the good news!
I have salvaged the best of the collection and these are listed below. I have priced the covers according to their condition and the scarcity of the postmark. Some of the postmarks are very/quite scarce, and most covers have multiple strikes. All covers listed are in collectible condition. If you order any of these covers, you may return them for a full refund if you are unhappy with them. Photocopies @10c each (3 covers/page) can be provided. Please include return postage. It is impossible to fully describe each cover individually, but the following legend in the ?? column has been used (for this section only) to provide as much information as posssible:

T = typed address
H = handwritten address
3 = number of postmarks on envelope (some quite scarce)
