POSTMARK REFERENCE NUMBERS are to the definitive reference work by **Colleen A Woolley assisted by Janet S Eury** titled **"Australian Pictor-Marks: A graphic history of Australia's Pictorial and Commemorative Postmarks" Edition 2, 2013**. Volume 1 1879-1989; Volume 2 1990-2012.
This 2 volume set is an indispensable tool which no serious cover and/or postmark collector can be without.
It is the definitive reference on Australian pictorial & commemorative postmarks.
Annual supplements were issued, however, the book and supplements are no longer produced. Those that were are out of print.
We have retained the old Peck numbers only because they are there. Correctly, we believe, they have been deleted from the 2nd edition of APM as they have outlived their usefulness as a transition to the new APM numbers.

BRISBANE-GLADSTONE YACHT RACES

Over the years, commencing in 1982, the Gladstone & District Philatelic Society Inc, produced limited edition covers to commemorate the Brisbane to Gladstone yacht race. All covers are numbered.
On many occasions, a special professionally designed and printed cover was produced and carried by one to three of the yachts in the race.
The chosen yachts differed each year. In later years, a cover for both a monohull and a multi-hull were produced.
On other occasions, official Australia Post FDCs, PSEs or Souvenir Covers were used suitably overprinted.
Each cover identifies the carrying yacht, is numbered (when applicable), and is hand cancelled at one of several Brisbane post offices usually with a pictorial cancel.
Alternatively, some covers are cancelled CDS Gladstone. Many bear both Brisbane and Gladstone cancels. Some are signed actually, or in facsimile.
In most cases, we have only 1 cover / set available.

SPECIAL CONDITION COVERS

The following covers are Australian special cancels/postmarks. They are from a collector who tried to obtain multiple strikes on a standard sized envelope, unfortunately leaving only space for an address, which was usually (sometimes poorly) handwritten. The Post Office then had the unenviable task of trying to apply postmarks as best it could. Consequently, postmarks occasionally overlap, cover part of the address, cover much of the stamps, etc. The plain envelopes have mostly also been folded down the middle.
Now for the good news!
We have salvaged the best of the collection and these are listed below. We have priced the covers according to their condition and the scarcity of the postmark. Some of the postmarks are very/quite scarce, and most covers have multiple strikes. All covers listed are in collectible condition. If you order any of these covers, you may return them for a full refund if you are unhappy with them. Photocopies @10c each (3 covers/page) can be provided. Please include return postage. It is impossible to fully describe each cover individually, but the following legend in the ?? column has been used (for this section only) to provide as much information as posssible:

T = typed address
H = handwritten address
3 = number of postmarks on envelope (some quite scarce)

ON PLAIN ENVELOPES

(Hand addressed, folded, unless otherwise indicated, condition reasonable/fair - still collectible)
