SPECIALS

LIST 36

COLLECTIONS

**This is the first time we have offered collections as specials.
Normally, we would place collections surplus to our needs in auction.
However, the last public philatelic / numismatic auction house in Brisbane has closed.
Consequently, our only choice is to offer the collections directly to our customers.**

**PLEASE NOTE that these collections come "as is" with all the advantages & disadvantages found in collections. Albums, binders, stockbooks, hingless pages are priced at zero.
We have made allowance for any blemishes / defects in our prices;
they are offered for a fraction of our retail prices. They are priced for the stamps alone.
In all auctions, collections are not returnable -- for any reason. Nor are any items from the collections here.
Thus we will not accept returns of individual items and be asked that they be replaced by top quality items from our stock.
However, these comments should not be interpreted that the collections are overall inferior and just a method of disposing of junk -- far from it.
They are just surplus to our needs and contain mostly quality items.
Unfortunately, when we acquire stock, we can not just buy what we want and often have to buy collections we do not need as we have sufficient material that they contain.**

**We do not have the capability to photograph these collections or scan parts of them, nor are we able to provide further description embellishments.
However, they remain a great way of establishing a sound collecting base from which the country / theme can be further developed.**

Please state the number for each item when ordering.

**All items remain on sale until sold or withdrawn.
There is no expiry date for this list.
New items will be added as they come to hand.**

Postage, packing & insurance is extra.

**Please note that GST (currently 10%) is applicable from 1 July 2000.
International sales are GST free.**
