SWEDEN

List Structure:

Commems, definitives and airmails are all together in approximately SG number order
Framas
Officials
Postage Dues
Military Post
Booklets - Counter
Booklets - Slot Machine
Broken Sets

To find an item in this list, please use Adobe's powerful search function.

We obtain our stock from collections we purchase.
We do not have a Sweden supplier.
Consequently, where something is unpriced, we do not have it at present.

We list all items we have in stock, including broken sets, and singles from sets.

Prices subject to change without notice.

Fine Used stamps include mint stamps without gum or postmark.

Please note that GST (currently 10%) is applicable from 1 July 2000.
Sales to other countries are GST free.

The prices in this list
INCLUDE
GST

All prices are in Australian dollars.

CLASSIFYING SWEDISH STAMPS

Almost all Swedish stamps come from coils/rolls or booklets. Very few come from conventional sheets.
Coil stamps are imperforate on two opposite sides -- the left & right (L&R) if they are vertically delivered, and the top and bottom (T&B) if they are horizontally delivered.
To aid in the classification and identification of Swedish stamps, Michel numbers include suffix codes for perforation varieties.
These suffixes are applied only when necessary to differentiate between stamps of the same design.
Where a stamp is issued in a single format, whatever it may be, a suffix is unnecessary and not used by Michel, although identified in the stamp's narrative. The suffixes used are:
A = imperforate Top and Bottom
B = perforate all sides
C = imperforate Left & Right
D = perforated on 3 sides, imperforate on one
E = imperforate on 2 adjoining sides
In 1967, Sweden began experimenting with fluorescent papers for its mail sorting machinery. The initial fluor reacted yellow under UV. Subsequently, paper reacting white under UV was trialed. The trials ceased in 1976 and all stamps from that time, apart from one printing error in 1977, were on "ordinary" non fluorescent paper. However, to aid mechanical sorting, an optical brightening agent (OBA) was introduced into the paper. This should not be confused with white fluorescence.
All fluor paper is assumed to be that reacting yellow under UV, unless expressly identified as white.
Fluor suffixes are used only to differentiate stamps of identical design. Stamps issued without paper variations may exist on ordinary paper, or with either yellow or white reacting fluor.
To identify paper varieties, Michel uses the following number suffixes:
x = ordinary paper
y = fluorescent paper
Neither Stanley Gibbons nor Michel identify gum varieties. These are identified from Facit.
Many Swedish issues, and most since 1976, have been issued with dull or invisible gum. These should not be confused with stamps from which the gum has been removed / washed [MNG].
The following illustrations should assist in understanding perforation varieties and collecting patterns of Swedish stamps.

Left stamp = Michel "A".

Right stamp = Michel "C".

Illustration 1

Coil/roll stamps
The stamp on the left is from a vertical delivery coil. The stamp on the right is from a horizontal delivery coil

Booklet stamps may exist with two opposite sides imperforate, a third side imperforate, or all sides perforate (with or without margins).

All stamps on the top row = Michel "D".

All stamps on the bottom row = Michel "D".

Each vertical pair from the pane = Michel "D/D"

Illustration 2

Booklet stamps

A horizontal booklet pane imperforate on top and imperforate on the bottom.

Each stamp on the top row = Michel "D".

Each stamp on the bottom row = Michel "E".

The top horizontal pair from the pane = Michel "D/D" (imperf 2 sides)

The bottom horizontal pair from the pane = Michel "E/E" (imperf 3 sides)

Each vertical pair from the pane = Michel "D/E" (imperf 1/2 sides)

Illustration 3

Booklet stamps

A vertical booklet pane imperforate at the left and imperforate at the right and imperforate on the bottom.

SG	Michel	Year	Particulars	MUH	Mint	Fine Used	Used

A stamp perforated on all
4 sides = Michel "B".

Illustration 4

Booklet &/or sheet stamps

A "conventional" stamp perforated on all 4 sides.

It may originate from sheets &/or booklets.

COLLECTING SWEDISH STAMPS

The choice of what you wish to collect is always yours, although the collecting habits of many collectors are determined, or heavily influenced, by the contents of mainstream hingeless albums such as Lighthouse, Davo and Lindner.

Michel
C, D, D, D/D

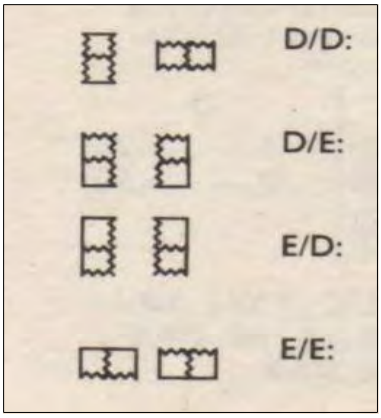

Illustration 5

"Simplified" collectors may be happy with just one stamp from illustration 5. After all, the stamps are of the one design.
A more "experienced" collector recognised that stamps 1, 2 & 3 have different perforations and thus wishes to collect all three.
The pair at the right polishes off his / her collection showing a unique combination of stamps 2 & 3.
Clearly, stamp 1 is from a coil and the others from a booklet. The "D/D" pair is very popular with European / Scandinavian collectors but less popular with Australasian collectors.

Michel
A, A

Illustration 6

Michel Pairs

Michel
C, C

Illustration 7

Furthermore, advanced collectors, particularly Europeans / Scandinavians, like to collect different stamp formats.
Thus the Tigers in Illustration 6, which are issued in continuous vertical dispensed coils, can be collected in the design 1 / design 2 combination, or vice versa. We do not list these 2 combinations separately, although we are usually able to supply both.
Illustration 7 shows the same principle for horizontally dispensed continuous coils.

Michel
D, D
D, D

vertical pair
D/D (perf 2 sides)

Illustration 8
Europa issue, se tenant, ex booklets.
Imperforate T & B.

Illustration 8 shows a se tenant block of 4 stamps of two designs, imperforate T & B, thus producing 4 uniquely perforated stamps.
"Simplified" European collectors would like one vertical pair -- advanced collectors both pairs and/or the block of 4.
"Simplified" Australasian collectors would prefer a horizontal pair and advanced collectors the block of 4.
We are unable to list all combinations from all issues. We will try to help you with your particular requirements.
Whilst we will do our best, it may not be possible for all issues.
